

How to make

your own

Cloud Man

puppet

Takes approximately 1 hour
(with one adult helper per 5 children)

MATERIALS

- Garden stick 17.5 cm
- Polystyrene ball or ping pong ball
- Glue dots / Pritt stick
- Matchsticks
- Length of string Approximately 20cm long
- Sellotape
- Black felt tip pen, pencil, rubber, scissors
- Good quality white or coloured paper, cut into circles
- One circle approximately 15cm diameter.
- Five very small circles cut to approximately the size of 2p piece.

METHOD

- 1 Take your large paper circle and draw a line to the centre.
- 2 Cut along the line, stopping at the middle of the circle.
- 3 Push the ends together to make a cone and tape.
- 4 Choose a polystyrene ball and length of garden stick.
- 5 Push the stick into the head.
- 6 Select a pom-pom for a nose. Attach a glue dot and stick to head.
- 7 With the marker pen draw on eyes.
- 8 Select one small circle to make the ears and four circles to make the hands and feet.
- 9 Cut one circle in half and tape matchsticks to each half. Push into the sides of the head.
- 10 Push stick into the top of the cone. (You can snip off the top to make a hole)
- 11 Make a stopper with sellotape so body doesn't slide off the stick.
- 12 Take the length of string and tape a small circle on each end to make arms and hands.

13

Tie the string in a knot around the neck of the puppet.

14

Finally tape the two remaining circles to the bottom of the puppet to make feet.

VARIATIONS

Introduce more 3D shapes for bodies, hands and feet and hats.

Use pattern and colour and texture to create imaginary creatures and animals.

Provide different cut-out shapes for feet, hands and ears to make different creatures.
